

Equipment

In order to maximise learning time and to ensure that every student is prepared for learning, we ask all students to ensure that they have The Power of 5 with them at all times. The Power of 5 includes the student planner (issued by the academy), a reading book, pencil case, water bottle and academy iPad.

Items in the **pencil case** - 2 black pens, 2 green pens, 2 pencils, ruler, rubber.

All students must ensure that their **iPads** are fully charged in time for the beginning of each academy day.

Mobile Phones and Other Electronic Devices

Students will not be permitted to use their mobile phones, airpods, headphones, smart watches, fitness trackers or other video, music or filming devices during the academy day. It is strongly recommended that these devices are not brought to the academy. If these items are brought to the academy they should be switched off and kept in the students' school bag. Any mobile phone or electronic device that is seen or heard inside the academy will be handed to a staff member and will be kept at the academy until a parent can collect them. Students will be given an appropriate sanction. The academy will inform any parents of any student whose device has been seen or heard and will retain the electronic device until a parent can collect it at the end of the academy day.

The same rules relating to mobile phones and other electronic devices apply on school trips.
