The Child Protection Safeguarding

Handbook for Parents

At Oasis Silvertown we strongly believe that children have a right to feel secure and cannot learn effectively unless they do!

What the school does to keep our children

At Oasis Silvertown Academy we have a moral and statutory duty to safeguard and protect the welfare of all our children. We provide a welcoming and safe environment where our children feel safe, respected, valued and cared for. We have strict procedures and guidelines to ensure that children receive effective support and protection and are safe.

Academy Procedures:

- We ensure staff members are trained in Child Protection, and Safeguarding procedures and practices.
- We ensure signs of concern are picked up at an early stage.
- We ensure staff are trained on the positive handling of children
- All contractors and visitors working on site have a valid DBS check, which must be presented to the school office staff upon arrival together with valid photo ID.
- No personal cameras/phones or other electronic devices are used to take pictures/videos of the children while working on site.

Through Assemblies and Class Curriculum:

- Children have opportunities to talk about and discuss issues in a safe, non threatening environment.
- Children learn how to keep safe online, not only in chatrooms etc, but also when generally browsing the net
- Children are taught Sex and Relationship Education (SRE), including understanding and respecting ones personal space and how to build healthy relationships with friends and peers.
- Children are made aware of the signs of bullying/cyber-bullying, and know whom to talk to about such issues.
- Children are taught about healthy eating and having a healthy lifestyle, including the importance of sleep & physical exercise.
- We work closely with our safer schools officer to understand the social context of our children, their families and the community.
- Our safer school police office has delivered assemblies to our children.
- PHSHE Curriculum is taught for 45mins twice a week for all cohorts.

Safeguarding children is everyone's business

ness

My friend keeps asking for food from my packed lunch box. He said his mum can't afford to do shopping this week. I feel sorry for him. Should I tell my teacher?

My friend is always talking to people she doesn't know online. She keeps asking me to join their chats but my mum said I should not get involved. Should I tell someone?

My dad said I deserve to be punished because I'm a bad person. I'm scared he might hit me again. Is it ok to tell someone? I don't want him to be in trouble

If I tell the teacher they're bullying me online they might do it even more ...

I think my son's friend is being neglected at home. He's always poorly dressed and hungry. Who should I talk to?

It is essential that we all work together to ensure that our children are safe, happy and secure

Parents & Academy Working Together ...

**IF YOU ARE CONCERNED ABOUT THE SAFETY OF A CHILD,
YOU SHOULD ACT WITHOUT DELAY!**

Children often don't tell others about the treatment they are experiencing or witnessing because they are frightened about what may happen to them. They feel they may not be believed and although they want it to stop, they may love or care for the person and not want them punished. In some cases the child may be scared that the person will find out that they have spoken to someone and worried that the situation will get worse. It is therefore important that we are sensitive and listen to children to ensure they feel that they can talk to us and trust that we will protect and help them.

- If the academy is concerned about a child they will discuss this with the parent/carer first, unless they believe the child is in immediate danger.
- The academy have a duty of care to all children and will report concerns that they have to the MASH team (Multi Agency Safeguarding Hub).
- Always report any injuries your child has to your child's teacher or to the school office.
- Parents should feel assured that although the services will always work in the best interest of the child, they will support families throughout the process

The person who leads on safeguarding pupils is called the designated safe-

Report it!

Over **29,000 children and young people** contacted
ChildLine about abuse last year

If you have concerns about a child's safety and wellbeing, including a child in your family you must **say something**. If you have any concerns or suspicions, you can speak to the academy's safeguarding person—**Mrs Romala Gill or Emily Boxer** however you may prefer to report a concern anonymously to any of the safety teams detailed on the back of this leaflet.

'Say something if you see something'

Child Protection & Safeguarding Concerns

There are many forms of abuse and neglect, many of which the majority of people understand, however, there are some aspects that some adults may deem acceptable due to personal or cultural beliefs. Regardless of cultural or personal beliefs, these still fall under the child protection policy. The main safeguarding and child protection categories are:

- Physical abuse
- Emotional abuse
- Sexual abuse (including exploitation/grooming/child trafficking/up skirting etc)
- Child Neglect
- Peer on Peer Abuse
- Radicalisation and extremism

Police recorded almost **95,000 offences of cruelty & neglect** against children last year

Safeguarding links to Attendance & Punctuality

Attendance and punctuality play a strong part in the safety and welfare of our children.

There is a link between poor attendance at school and concerns with the safety and wellbeing of vulnerable children. We take attendance very seriously and monitor all students attendance on a weekly basis.

The Academy has an attendance officer who works alongside the Academy, parents, carers and other public services to ensure that we safeguard our vulnerable children and reduce truancy.

There are currently **over 50,000 children** identified as needing protection from abuse in the UK

Abuse that most effect children in the UK:

1. Physical Abuse

Physical abuse may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating, or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.

2. Emotional Abuse

Emotional abuse is the persistent emotional maltreatment of a child such as to cause severe and persistent adverse effects on the child's emotional development. It may involve conveying to children that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person. It may include not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond the child's developmental capability, as well as overprotection and limitation of exploration and learning, or preventing the child participating in normal social interaction. It may also involve serious bullying (including cyber bullying), causing the child to frequently feel frightened or in danger.

3. Sexual Abuse

Sexual abuse involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving a high level of violence, whether or not the child is aware of what is happening. The activities may involve physical contact, including assault by penetration or non-penetrative acts such as kissing, rubbing and touching outside of clothing. They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse (including via the internet).

4. Neglect

Neglect is the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy as a result of maternal substance abuse. Once a child is born, neglect may involve a parent or carer failing to provide adequate food and clothing, shelter including exclusion from home or abandonment, failing to protect a child from physical and emotional harm or danger, failure to ensure adequate supervision including the use of inadequate care-takers, or the failure to ensure access to appropriate medical care or treatment. It may also include neglect of, or unresponsiveness to a child's basic emotional needs.

Visible signs of child neglect can be seen in the form of:

- Constant hunger
- Poor personal hygiene
- Constant tiredness
- Poor state of clothing
- Emaciation
- Untreated medical problems
- No social relationships
- Compulsive scavenging
- Destructive tendencies

5. Child sexual exploitation (CSE)

A child is subject to a form of sexual abuse where an individual or group takes advantage of, or manipulates, a child into sexual activity, in exchange for something the victim wants/needs, and/or for the financial advantage of the perpetrator.

6. Peer-on-peer abuse

Peer-on-peer abuse can involve domestic abuse, CSE, serious youth violence and harmful sexual behaviour. There is no clear boundary between peer-on-peer abuse and incidents that are

Long Term Effects of Abuse on Children...

The effects of abuse are wide ranging and usually long lasting, and can include:

- Low self esteem
- Problematic behaviours
- Educational problems, e.g. slow to develop speech
- Relationship difficulties
- Mental health problems
- Substance (drug and alcohol) abuse
- Self-harm including actual or attempted suicide
- Difficulty in parenting their own children
