

This is the final week of usual lessons for Year 11 before they begin exams. We are so proud of all of our Year 11 students and wish you the very best as you prepare for your exams. We are right there with you to the end!

The Year 11 Art exam and language speaking exams went very well last week. Congratulations to the students who have completed that part of their course.

Last week some of our Year 8 students had a brilliant day out with the STEM Crew Live, working with the 1851 Trust and learning about careers and opportunities in STEM. Many of our Year 7 and 8 students also took part in the challenging UKMT Maths challenge. We look forward to seeing what they achieved!

This week and next we are launching Year group competitions for Year 7-10, with everyone welcome to enter and great prizes to be won. More details to follow from our Heads of Year.

We are continuing to push for perfect uniform for every student so that we can all Be Proud in how we look at school. Please ensure your child has their blazer in school every day.

Thank you for your ongoing support.

Emily Boxer, Principal

- **7th May** – Turkish GCSE Exam
- **8th May** – Drama GCSE Exam

Meet our student leaders:

Mamadi Dabo

Student Leader – Year 8

I chose to be a student leader because of my experience of leading others and wanting to make a change in the community. One of the things a student leader needs to have is confidence and I think I have that. I say this because I know at the end of the day, I'm willing to do whatever I can to make our school community a better place.

The subject that I am most interested in is P.E. The reason I'm so interested in PE is because I do a range of sports and I'm very athletic – I'm also a sports leader in the school which increases my love for sport.

The career I'm looking to pursue in the future is to become a data analyst in technology, because I love complex situations and I think I'm good at problem solving. It also gives me a chance to be free and show my creativity.
